Annette Primrose, Operable Units 1, 2, and 11 Project Director

Environmental Restoration Project

EG&G Rocky Flats, Inc

John Hopkins, Feasibility Study Subject Matter Expert

Environmental Restoration Project

EG&G Rocky Flats, Inc

The Rocky Flats Field Office's Future Site Use Working Group agreed to eliminate residential uses from the future use plan (based on their December 8, 1994 draft meeting minutes) The Board of County Commissioners of Jefferson County unanimously passed a resolution (number CC94-654) stating that,

"It is the position of the Board of County Commissioners that Maintaining, in perpetuity, the undeveloped buffer zone of 'open space' around Rocky Flats is a critically important environmental, safety, and health constraint which must be required as part of any and all alternative actions proposed by the Department of Energy "

It is appropriate that the Department of Energy recognize this stakeholder input for any remedial action decisions for the Rocky Flats Buffer Zone Operable Units (OU) No 1 2 5, 6, 7, and 11 Therefore, any Preliminary Remediation Goals/Remedial Action Objectives proposed in Buffer Zone Feasibility Study Technical Memoranda should not consider residential use
